Graphene & 2D Materials Europe 2020 & Printed Electronics Show

**13 - 14 May 2020 | Estrel Convention Center,
Berlin, Germany**

WHAT TO EXPECT

2500+ Attendees

200+ Exhibitors

250+ Presentations

SRI LANKA PAVILION

BOOTH T14-T16

The IDTechEx Show! is hosted by IDTechEx. Since 1999 IDTechEx has provided independent market research, business intelligence and events on emerging technology to clients in over 80 countries.

On 13 & 14 May in Berlin, The IDTechEx Show! presents the latest emerging technologies at one event. Six concurrent conferences and an exhibition will cover materials, manufacturing and components relating to: 3D Printing, Graphene & 2D Materials, Printed Electronics and sensors. Importantly we will also highlight industry applications too such as: Electric Vehicles, Healthcare, Internet of Things and Wearables.

SLG-Forum encourages Sri Lankan SMEs and Large scale exporters to participate in the Exhibition and establish their market in Germany and EU Countries.

SLG-SLINTEC will be the key forum at the Exhibition with Graphene and Nanotechnology in the Electronics . This includes SLINTEC Startups forum.

Booking of space for 2D

<https://www.idtechex.com/graphene-europe/show/en/>

This event will cover all promising applications of graphene, including graphene composites, supercapacitors and batteries, functional inks, logic and memory, touch screens, sensors and bio-electronics and beyond. Our audience will develop a comprehensive yet detailed understanding of the state of technology and market per graphene application area.

Booking of space for Printed Electronics Europe

<https://www.idtechex.com/europe2020/show/en/colocated-events#PE>

This event focuses on the commercialisation of this technology, covering printed, flexible, structural and hybrid electronics. We have some of the world's largest end user companies presenting on their needs and experiences with printed and flexible electronics, and many more are in attendance to learn how they can use these new technologies in their products. This is the event to meet end users and create business.

Shared Exhibiting Package Booths T14, T15 & T16

- 27m² exhibition space
